

Table A3: Behavioral Descriptives of Survey Participants (Random Effects)

	Year		Total
	2018	2020	
	Prop.	Prop.	
Cohesion Index			
Not Fair, Not Helpful, Not Trustworthy	0.297	0.271	179
Either Fair, Helpful or Trustworthy	0.484	0.483	316
Fair, Helpful, and Trustworthy	0.219	0.246	185
Offline Political Participation (12 Months)			
Not Participated	0.783	0.900	550
Participated	0.217	0.100	130
Online Political Participation (12 Months)			
Not Participated	0.783	0.776	494
Participated	0.217	0.224	186
Census Occupation (STEM or Non-STEM)			
Non-STEM Occupation	0.863	0.833	557
STEM Occupation	0.137	0.167	123

Note: Sample values are based on the total sample size after the controlled regression (N = 680). Cell numbers indicate the proportion of participants per category per year, while the *total* column indicates the total number of participants within each category across both years. It is assumed that these variables will mediate the effect of our main regressors on happiness.
